

Celebrate!

Getting preapproved for your auto loan before you shop will make you want to...

The Benefits of Getting Preapproved!

1. No more spending the entire afternoon at the dealership – Save time by getting preapproved before you shop.
2. Get a better deal than dealer financing – Get preapproved and avoid hidden fees and charges that are often tacked on.
3. Compare our loan options – A lease-like loan from the credit union may be a good solution for some members.
4. Negotiate on the price of the car only – know the fair market value and never negotiate on payment.
5. Protect yourself and your investment - consider adding GAP, warranties, credit life and/or credit disability insurance.
6. Obtain a CARFAX report – some dealers provide this or you can purchase one through us at a discounted rate.
7. Anticipate all of your costs – loan payment, fuel, insurance, registration fees, and maintenance.

We make it easy to get preapproved.
